PROFESSIONAL SUMMARY

Diploma in Electrical Engineering student with a strong interest in web development and computer technology. I build responsive, accessible websites with HTML, CSS and JavaScript, and use Git, GitHub and VS Code in a practical, hands-on workflow. I combine an engineering mindset with project-based learning, and I am open to internships, learning opportunities and collaboration to grow as a front-end developer.

EDUCATION

Diploma in Electrical Engineering — Currently studying

Faridpur Polytechnic Institute

Department of Electrical Engineering · 3rd Semester

Secondary School Certificate (SSC) — 2024

Result: GPA 5.00 out of 5.00

PROJECTS

Personal Portfolio Website — LIVE — saadsheikh.bond

HTML · CSS · JavaScript · built from scratch, no frameworks

- **Responsive design** with a dark/light theme, project filtering and a keyboard command menu.
- **Accessibility:** skip links, ARIA labels and keyboard-friendly dialogs and navigation.
- **Contact form** with client-side validation and spam protection, delivered through Netlify Forms.
- **Performance:** responsive WebP images and offline support through a service worker.
- **Security & SEO:** strict Content-Security-Policy and security headers, sitemap, structured data and social preview tags.

JavaScript Practice Builds — Concept stage

Calculator · To-do list · Expense tracker · Weather app · Simple game

- Practice projects for DOM manipulation, events, state handling and API-ready structure. More work is shared on GitHub.

CAREER OBJECTIVE

To start a career in the technology industry by applying my web development knowledge, strengthening my programming skills and gaining practical experience, with the goal of becoming a skilled web developer who builds useful, real-world applications.
